Ernie Ball Wah PedalLocate where to purchase Ernie Ball strings The world's leading manufacturer of premium guitar strings, bass strings, and guitar accessories. Utilizing the most popular of all volume pedals at its core and more than just a simple volume mod, the PM-1 is a complete overhaul of the Ernie Ball VP offering the ultimate in through tone performance, swell taper response, and tour grade durability. Ernie Ball is the world's leading manufacturer of premium electric and acoustic guitar strings, bass strings, and guitar accessories. Though, it's shortcomings arrive with the fact that it is completely passive The design places a 250k volume pot at your foot, which is just like wiring another paralleled pot in your guitar, and naturally causes some high end loss. Features - Organic and true response buffering - Custom designed potentiometer for unrivaled swell - Treatment to string to eliminate slipping and prolong durability - Input Z control to suit your guitar's pickups and adjust high-end sensitivity - Independent op-amp input and output buffers - Fully isolated and buffered Tuner Out - 9v operation with reverse polarity protection - Cree high output blue LEDs with internal defeat switch - True bypass switch for stock pedal use if power is unavailable Gear lovers geek speak for those who want more.

This is small compared to the damage you cause your signal if you use the Tuner Out jack (You know the term. The PM-1 Volume Pedal has been and remains the foundation of Thru-Tone Ohio Medicaid waiver programs. Discover which of your favorite artists play our strings by visiting our page From budding guitarists to seasoned professionals, Ernie Ball has the strings and accessories that are right for your level and sound. What that means, audibly, is a major hit in clarity, fullness, and power in your original signal along with the possibility of unwanted noise entering your signal chain due to the tuner's input not being isolated from your audio path. The Tuner Out is wired in parallel off the Input and because of this design being passive you are splitting your impedance load in half.

Our strings have been played on many of the best-selling albums of all time and are used by some of history's greatest musicians including Paul McCartney, Eric Clapton, Jimmy Page, Slash, The Rolling Stones, Angus Young, Eagles, Jeff Beck, Pete Townshend, Aerosmith, Metallica, and more.
